

Case History

Overhaul for soft furnishings at Spinnaker Tower

Rainbow International in Portsmouth recently had the opportunity to clean the soft furnishings in the prestigious and very aesthetic Spinnaker Tower.

Previous contractors had over wetted fabric on the chairs and stools which had induced pronounced staining.

The Facilities Manager of the building researched the market before appointing Rainbow for their expertise and skill in cleaning almost any kind of fabric or material.

A test clean by Rainbow before the contract was awarded was necessary, and it confirmed the suitability of the cleaning process and subsequently the contract was awarded.
